DogeKing

# Background

## Team history

The team was established in May 2019, a long time, has a wealth of trading experience

## Project side

We are a team from Singapore, learning from the experience of the previous generation XWG, summing up, and finally seize the opportunity, ready to play

## 2022. Fortune Code

First of all, congratulations on standing in the wind, this time you will work with us to build a miracle

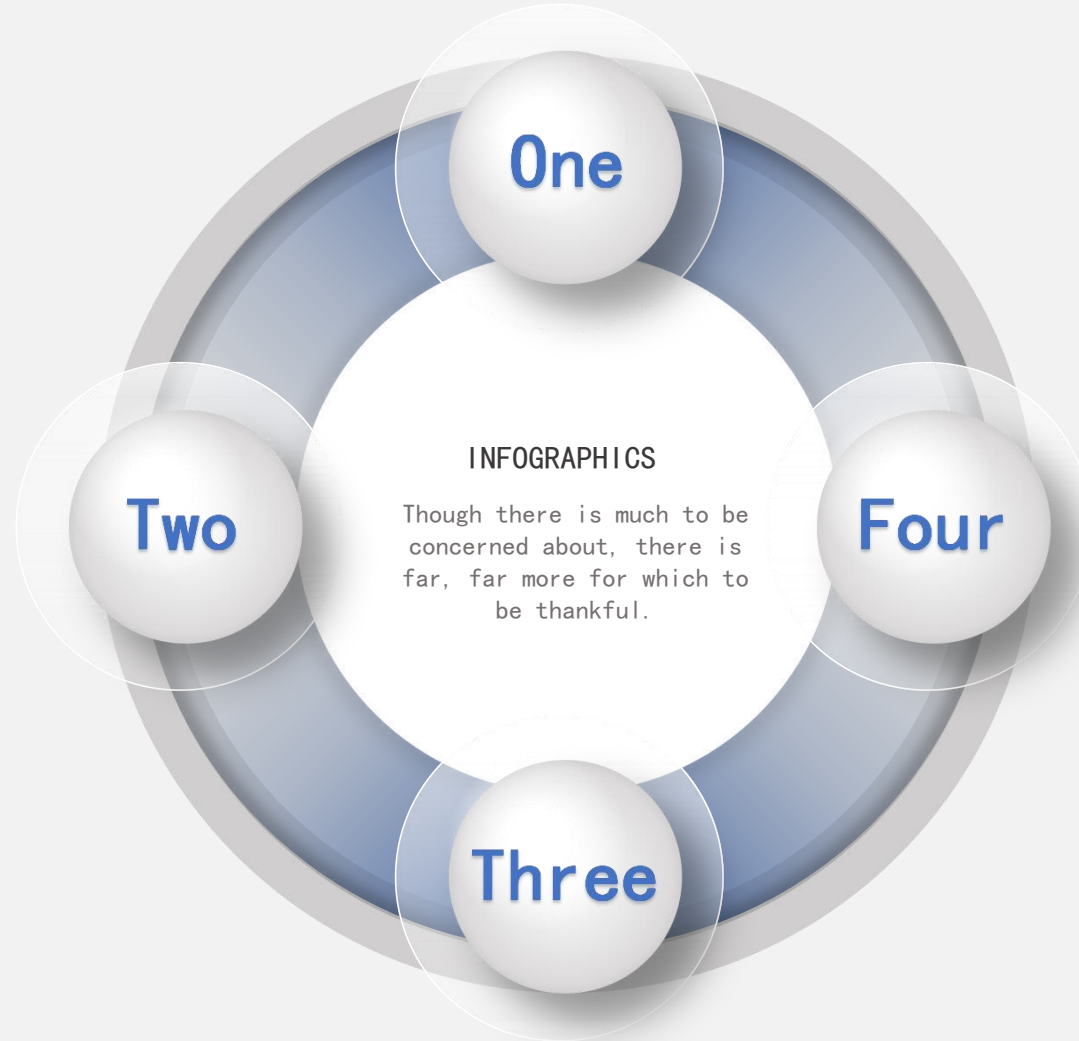

# Background

## One

2021, a variety of animal coins have sprung up that some say are hype, but are in fact worthless. However, the existence of animal coins makes sense, and we can see two main values of animal coins: they are easily understood by ordinary people,

## Two

and they may become the most important transportation entry point in the blockchain world. There have been some successes, like doge and Shiba, but there are also examples, like the rabbit crash on the Internet, which reflects the characteristics. in of its experiments.

## Three

We started DogeKing to try a completely decentralized community experiment. Given that DogeKing is a stable, fierce, lovable animal, the culture of the DogeKing community is based on steady operations and fierce attacks when opportunities arise.

## Four

At the same time, we want to be a lovely nft community. In order to make DogeKing a useful community currency with real application scenarios and good ecology, DogeKing will exist for a long time as an important component of BSC ecology to build community consensus.

# Tokenmechanism

# Tokenmechanism

**2%**

Burning in  
Shib mode

**Each transaction  
Burns 2%**

The burning is intended to contribute to the scarcity of Tokens, which will make the original few tokens more and more precious

**4%**

Pig's reflux  
LP pool

**4% of each fee  
goes into the  
LP pool**

Each transaction will allow the LP pool to gradually thicken in preparation for the bathroom

**2%**

Marketing  
Wallet

**2% per transaction  
goes into the  
marketing wallet**

Marketing Wallet 2% will be one of the most important sources of our online CG, CMC and all the major search engines

# Token Allocation

## DogeKing

DogeKing token allocation dogeking is a pure decentralized finance (Defi) token running on the binance smart chain (bep-20). HIP's goal is to achieve a fully community driven decentralized autonomous organization (Dao) dogeking of 2000000, 50% of which is destroyed directly with the remaining 40% being the original centralized transactional liquidity pool. As a pure community experiment, all tokens are released to the community for self-supervision.

01

Circulation is 2000000, 50% = 1000,000, and liquidity is 40% = 800,000

02

Project side holds 5% = 100,000 pieces, the remaining 5% = air drop

03

The pattern is a fair shot, with violent stretching after the opening bell

## DogeKing

Three directions

### Internet access

The Internet is the root of our follow-up development, will emphasize the development of offline

### Advertising

Advertising will also play a crucial role in the future of the token planning, follow-up will work closely with the three steps

### Ground Push

Push the ground is our trump card, will be the key to our success, is our foundation

2022

**Welcome to  
DogeKing**
